*You've got a friend,
at Great Lakes!*

A friend is someone who watches out for you. Someone who keeps track of the events in your life and helps you remember details of time you spent together. When it comes to the products which house and protect your telecommunications, data, broadcast, sound & security equipment, Great Lakes Case & Cabinet Co., Inc. is your friend.

You see, at Great Lakes, we assign a serial number to each one of our enclosures. So, like a good friend, we can tell you everything about the enclosure you purchased from us, even if it was ten years ago. We can tell you all the specifics of the purchase, which distributor you purchased it from and we can help you with an exact match if you need a replacement or an additional unit.

There aren't many other companies in this industry who can do that for you.

That's the level of service you know you can count on from Great Lakes Case & Cabinet Co., Inc. We've been there for you for more than 23 years and we'll be there for you whenever you might need us. It's what you'd expect from a good friend.
